As heretofore, Physical Culture will receive the attention its importance demands. Education after the method of the Boston School of Oratory. Object lessons in the Primary Department upon the plan defined by Prof. Goodale, of Harvard University, and daily lessons in every department upon Health, Current Events and Topics of General Interest. Drawing will be included in the Primary Course, and French in the Intermediate. A thorough three-years course in English Literature, supplemented by extra work in the study of German and French authors. The Principal of the school will give her personal attention to each department.

The KINDERGARTEN will be under the charge of Mrs. E. C. James, an accomplished graduate of the training-school of Mrs. A. B. Ogden. Number limited to twenty. As this is the only Kindergarten in Memphis, and as no parent should be willing to deprive a little one of this beautiful mental, moral and physicial health giver, it is important that application for seats be made at once.

Pupils in all departments are expected to enter at the beginning of the term.

THEHOPEOILMILL WILL furnish sacks to responsible shippers and
pay the market price for good new seed, delivered on levee or at railroad depots, Memphis,
